

Brendo Terms and Conditions

1. General Provisions

1.1. These General Terms and Conditions (hereinafter: “Terms”) set forth the conditions for the use of the <https://brendo.app> website (hereinafter: Website) operated by Győrfy Máté, 1046 Budapest Bajza József utca 16., 8487360602 (hereinafter: Operator), as well as the functions available through the **Brendo** mobile application (hereinafter: Application) (hereinafter collectively: “Services”).

1.2. Use of the Website, the Application, and the Services is only permitted by accepting and complying with these Terms. By using the Services, the user declares that they have read, understood, and accepted these Terms and agree to be bound by them.

1.3. For the purposes of these Terms, a user is any person who uses the Application and its functions. This is only possible by accepting these Terms and the Privacy Policy.

1.4. These Terms describe the Services available in the Application and the fundamental rights and obligations of Users.

1.6. By using the Application, the User acknowledges that the Operator records and processes any personal data provided by the User, as well as technical and usage information generated while using the application, and statistics related to usage patterns. The Operator uses this data solely for the purposes and in the manner defined in the Privacy Policy, which is publicly available on the Website.

1.7. These Terms are governed by Hungarian law. For matters not regulated herein, the applicable laws in force, particularly the Civil Code, Regulation (EU) 2019/1150 of the European Parliament and of the Council, and other applicable EU and national laws shall apply.

1.8. The Operator reserves the right to unilaterally amend these Terms. Any future changes will be published on the Website, and Users will be notified within the Application. The Operator is entitled to partially or fully modify the content of the Services, pricing, usage conditions, and the duration of advertisement postings.

1.9. The User accepts modifications to the Terms through implied conduct if they use any Services or access the Website or the Application after the modifications have taken effect.

2. Use of the Mobile Application

2.1. The functions of the Application can be used without registration, but only upon accepting these Terms and the Privacy Policy. This acceptance occurs at the end of the onboarding process, and it is not possible to proceed without accepting the mentioned documents. The Operator reserves the right to require registration for the use of the mobile application in the future, in which case Users will be notified.

3. Browsing Posts

3.1. The Operator enables Users to browse and search for leisure activity ideas (hereinafter: posts) in the mobile application.

4. Publishing Posts

4.1. The Operator enables Users to upload posts, i.e., leisure activity ideas, including an image and description, via the mobile application. Uploading is done through a free, in-app interface where Users can create their own content independently. **Uploaded posts are visible and accessible to all Users.** The content of the posts must comply with applicable laws, generally accepted community norms, and the Operator's guidelines. The text of the post and the uploaded image **must not contain personal data**, such as a name, face, contact details, or any other information that could directly or indirectly identify a natural person.

4.2. User-submitted posts do not appear automatically in the application as they are subject to prior review. The Operator reserves the right to approve, modify, withhold, or delete submitted content based on its formal or substantive characteristics.

4.3. The User may only upload images they have created themselves or for which they have lawful usage rights. Uploading images created by others, downloaded from the internet, or used without authorization is prohibited, even if no person or recognizable logo is visible in the image. The Operator assumes no responsibility for images uploaded in violation of the law but has the right to remove such content without prior notice. The Operator is entitled to apply electronic watermarks to uploaded images and to optimize their size or quality for technical display purposes.

It is also prohibited to submit any post that:

- infringes on the rights of others (especially copyrights, personality rights, or data protection rights),
- contains hate speech, harassment, offensive, or violent content,
- is sexual, discriminatory, or offensive to public morals,
- contains misleading or false information, or otherwise abuses the service.

If a post does not meet the operational purpose, aesthetic, or content expectations of the application, the Operator is entitled to:

- technically or substantively modify the post (e.g., correct spelling errors, rephrase, amend),
- refuse publication, or
- delete the post without notice if it contains false information or violates the application's guidelines, laws, or community norms.

The User acknowledges that a submitted post:

- cannot be deleted or modified by them after publication,
- and its further handling is solely at the discretion of the Operator.

5. Saving Memories

5.1. The Operator allows Users to save their memories in the mobile application, which appear as images similar to polaroid photos. The Operator does not store this data in its database; it is stored only on the User's device. If the User removes the application from their device, these will be deleted.

6. Use of the Database and Content

6.1. The collection of posts available in the mobile application – their structure, compilation, organisation, and operation – constitutes a database created by the Operator. As the producer of the database, the Operator has exclusive rights to copy, distribute, communicate to the public, or otherwise use any part of it.

Pursuant to Section 84/A (1) of Act LXXVI of 1999 on Copyright, the database – or any qualitatively or quantitatively substantial part of it – may only be used with the prior written consent of the Operator. Unauthorised copying, downloading, republication, or other use is unlawful and may result in legal consequences.

6.2. By uploading a post, the User declares that they hold all necessary rights to the published text and image, and that these do not infringe the rights of third parties.

By submitting a post, the User grants the Operator a non-exclusive, free, irrevocable right to use the post for publication, display, storage, copying, and distribution within the application. This right is unlimited in time and geography and extends to allowing third parties to publish the content for promotional or technical purposes.

The User may only upload content they have created themselves or for which they have obtained the necessary rights. Uploading images or text created by others, downloaded from the internet, or used without authorisation is prohibited. The User bears sole responsibility for any disputes arising from the publication of such content.

6.3. It is prohibited to use any automated system or software (e.g., data extraction robots, bots, scripts) for the mass collection, copying, or other use of content, data, or posts available in the mobile application or on the Website.

6.4. By starting to use the application, the User agrees to use the application and its content – especially the database and posts – solely for non-commercial, personal purposes. This particularly includes:

- viewing and browsing the content of the application,
- uploading their own leisure activity idea,

- reviewing and learning about other users' ideas,
- proper use of the functions provided in the application.

The business, automated, or mass use of the application or the database (e.g., machine data extraction, content aggregation) is not permitted.
